Kamaludeen Aboobaker**Note:**

- 1 To be able to quote for motor rewinding, the motor must be open/assessed to determine the nature of fault before quotation at different workshop.
- 2 Recoupling the motor back will cost us more (as everywhere workshop visited ask for an extra cost to open the motor and check the faults) before quoting.
- 3 Hence we gave Gulf Lights a go ahead to fix the faults at the best prices.
- 4 Regular motor maintenance and repair company for pump motors for ASP.
- 5 Recommended by Maintenance Manager based on previously service.

Pay Term: Advance

QUOTATION

Company : Al-Cat
