We are replenishing Fruit Mix and Apple Juice Concentrates from our approved supplier, Dohler, with a total order of 46 MT Fruit Mix Concentrate and 92 MT Apple Juice Concentrate. To ensure a steady supply for the year 2024, we are finalizing a forward contract, covering multiple delivery schedules from February to September 2024 in 6x 40 FCL reefer containers.

Based on the current market analysis, the high cost and limited availability of orange concentrates are prompting a shift in focus towards other primary juice concentrates. Additionally, our supplier anticipates an increase in operational costs in 2024 due to rising fuel prices, and Apple juice prices remain 23% higher than last year in the market, with expectations of continued high prices throughout the year 2024. Both Apple and Fruit Mix concentrate fall under our primary juice category. Hence, we are initiating this order to secure an adequate supply of high-quality concentrate to meet our 2024 requirements.

The order quantity for Fruit Mix concentrate is expected to provide coverage until February 2025, and the Apple Juice Concentrate is anticipated to cover our needs until March 2025. The products have a shelf life of 24 months, and we are expecting them to be delivered with fresh production dates, ensuring no risk of expiry. (Please refer to the attached detailed calculations and coverage sheet for more information.)

01. Initially Supplier quoted price Euro 3.55/kg for Fruit Mix Concentrate & Euro 2.15/kg for Apple Juice Concentrate.

02. Later, post negotiation we secured Euro 3.45/kg for Fruit mix conc same as last purchase price in May-2023 and Euro 2.09/kg for Apple Juice Conc same as last purchase price in July-2023.
