1. **DEFINITIONS**
1.1 "Carrier" means the person or company that transports the Goods from the place of origin to the place of destination.
1.2 "Contract" means the agreement between the Buyer and the Seller, including the terms and conditions of sale, and the terms and conditions of carriage.
1.3 "Goods" means the goods being transported by the Carrier.
1.4 "Incoterms" means the International Commercial Terms published by the International Chamber of Commerce.
1.5 "Manner" means the manner in which the Goods are transported by the Carrier.
1.6 "Place of origin" means the place where the Goods are loaded onto the Carrier's vehicle.
1.7 "Place of destination" means the place where the Goods are unloaded from the Carrier's vehicle.
1.8 "Seller" means the person or company that sells the Goods to the Buyer.
1.9 "Buyer" means the person or company that buys the Goods from the Seller.
1.10 "Contract of carriage" means the agreement between the Carrier and the Buyer, including the terms and conditions of carriage.
1.11 "Bill of lading" means the document issued by the Carrier to the Buyer, acknowledging the receipt of the Goods and the terms and conditions of carriage.
1.12 "Terms and conditions" means the terms and conditions of sale and carriage, including the Incoterms and the contract of carriage.

2. **WARRANTY**
2.1 The Seller warrants that the Goods are free from any defects and are in conformity with the description and the quantity stated on the Bill of lading.
2.2 The Seller warrants that the Goods are free from any claims of third parties, including claims of ownership, and that the Goods are free from any liens or other encumbrances.

3. **CARRIER'S LIABILITY**
3.1 The Carrier is liable for the loss of or damage to the Goods while they are in its custody, from the time they are loaded onto its vehicle until the time they are unloaded from its vehicle.
3.2 The Carrier is not liable for the loss of or damage to the Goods if the loss or damage is caused by the negligence of the Buyer or the Seller, or by the negligence of any third party.

4. **EXEMPTIONS**
4.1 The Carrier is not liable for the loss of or damage to the Goods if the loss or damage is caused by the following:
(a) The negligence of the Buyer or the Seller, or of any third party.
(b) The negligence of the Carrier's employees or agents.
(c) The negligence of the Carrier's subcontractors.
(d) The negligence of the Carrier's independent contractors.

5. **FORCE MAJEURE**
5.1 The Carrier is not liable for the loss of or damage to the Goods if the loss or damage is caused by a force majeure event, including a natural disaster, a war, a strike, or a government action.

6. **LOSS OF OR DAMAGE TO THE GOODS**
6.1 If the Goods are lost or damaged while they are in the Carrier's custody, the Carrier shall be liable for the loss or damage, unless the loss or damage is caused by one of the exemptions listed in Section 4.

7. **REPAIRS AND REPLACEMENT**
7.1 If the Goods are lost or damaged while they are in the Carrier's custody, the Carrier shall be liable for the cost of repairs or replacement of the Goods, unless the loss or damage is caused by one of the exemptions listed in Section 4.

8. **INSURANCE**
8.1 The Buyer is responsible for insuring the Goods against loss or damage while they are in transit.

Synlait Milk Ltd hereby certifies that the product supplied against this Certificate is made in New Zealand and may contain imported dairy ingredients. Samples have been examined and where required, subjected to IANZ accredited laboratory analysis using internationally recognised procedures in an ISO 17025 certified laboratory. Where required, such products are manufactured and tested in premises registered under statutory requirements by the Ministry for Primary Industries and these premises are subjected to regular audit to ensure compliance with the terms and conditions of registration. Test methods referenced below, where different from those given in the product specification, are considered by Synlait to be equivalent. This document is an electronically generated version of the true, complete and authorized records held in our Laboratory Information Management System (LIMS).

FREE FROM BOVINE SPONGIFORM ENCEPHALOPATHY/TRANSMISSIBLE SPONGIFORM ENCEPHALOPATHY (BSE/TSE)

I hereby confirm that New Zealand is free from bovine spongiform encephalopathy (BSE), scrapie, and chronic wasting disease of deer (CWD). These diseases are known as transmissible spongiform encephalopathies (TSEs). No cases of Bovine Spongiform Encephalopathy (BSE) have ever occurred in New Zealand.

New Zealand has legislation that prohibits the feeding of ruminant material to ruminants, this legislation has been in place since 2000.

This can be verified by the Biosecurity Division of the New Zealand Ministry for Primary Industries (www.mpi.govt.nz).

DIOXIN STATEMENT

I hereby certify that all products manufactured at any of Synlait Milk Limited's sites, follow the New Zealand Ministry for Primary Industries regulations and do not contain Dioxin in an amount that may represent a hazard to health.

The New Zealand Ministry for Primary Industries monitor raw milk samples for the presence of dioxins and dioxin-like compounds as a part of the National Chemical Contaminants Programme.

New Zealand is not heavily industrialized and so the risk of dioxin or dioxin-like PCBs entering the milk supply is very low. This has been confirmed in historic National Chemical Contaminant Monitoring Surveys.

Synlait Milk Limited also performs testing of finished product and periodic monthly monitoring testing. Samples are examined and subjected to laboratory analysis using internationally recognized procedures in an ISO 17025 certified laboratory.

I can therefore attest the product will comply with a requirement of low concentration levels for dioxin residues.

RADIOACTIVITY CERTIFICATE

I hereby certify that no product made at any of Synlait Milk Limited's processing sites is subject to irradiation treatment at any point during manufacturing and packaging.

Raw materials from 100% New Zealand origin milk are sourced from the New Zealand Ministry for Primary Industries registered farms and premises. All other raw materials including those not of New Zealand origin, are sourced from reputable suppliers that undergo radionuclide monitoring by regulatory bodies. Synlait does not source raw materials that have undergone irradiation treatment.

Results from monthly monitoring of rainwater and cow's milk products demonstrate that levels of radioactivity are insignificant in New Zealand. Periodic monitoring of products at Synlait Milk Limited, suggest that the goods supplied against this certificate contain only normal trace amounts of natural radionuclides at less than 2Bq/kg of iodine – 131 and less than 2Bq/kg of caesium-134 and -137. The historical testing of products produced at Synlait Milk Limited also confirm the levels of natural radionuclides are well within the limits set by CODEX and adopted by the New Zealand Ministry for Primary Industries.

The radiological results show the product to be fit for human consumption.
