OFFICE PRINTER CONSUMABLES: Seeking rate approval for the purchase of printer consumables essential for our daily operations. Given market price fluctuations, it's imperative that we have the flexibility to engage with any current or new supplier offering the approved rate or the lowest available rate over the next 12 months [January-December 2025]. Based on the quotations received from multiple vendors, the prices mentioned below serve as a tentative reference for our procurement decisions, ensuring cost-effectiveness. Most of are compatible toners and cartridges.																																																																																																																																																																																																																																																																																																																																																																																																																																						
SALES VEHICLE PRINTER CONSUMABLES (HIT): In addition to the listed office printer consumables, we procure around 120 units of Guest ribbons monthly for sales vehicle HIT devices. Argeus is the authorized distributor for Guest ribbons. Each Guest ribbon incurs a cost of QR 30 down from QR 32 in 2024. As suggested by IT, the consumption may vary based on the route category, as it depends on the number of invoices printed. Estimated consumption data provided by IT via email is attached.

Notes:																																																																																																																																																																																																																																																																																																																																																																																																																																						
1. We provide printers on free holding agreement in exchange for committing to purchase cartridges and toners from them.																																																																																																																																																																																																																																																																																																																																																																																																																																						
2. Trade quote submitted samples that were not approved by IT department due to low (third) quality of toner and cartridge. Here we considered the cost of second quality.
