Supplier Preference Criteria

Material will be purchased based on the rating given above. Followed by the lowest effective cost criteria subject to availability of the materials at the time of requirement. To add any other source of gabbro material as primary source, we need to get separate mix design certificate for each supplier/source by carrying out a complete process of obtaining mix design certificate from LSA-MOE.

1. QPMC has been listed in our mix design certificates and approved by LSA-MOE as the primary and main source gabbro materials. There is reliability on QPMC material stock availability & quality consistency at all time, based on our historical experience in dealing with them.
2. Material will be procured from above listed suppliers based on competitive price & quality test in case of material unavailability.
3. Payment to PAPILLON Contracting will be adjusted against supply of asphalt at mutually agreed price.

Revision if any in the above prices will be proposed for approval.
