								Service Memo.	:	Date :	
REASON/OBJECTIVE OF THIS PURCHASE											
<p>The chiller for the sheet extrusion machine is currently not operating efficiently, and we anticipate that it will take approximately one week to replace the compressor based on the feedback from the contractor. There is an urgent need to produce PET sheets for PET trays and neck holders (both Dandy and External orders). To address this, we are proposing sheet conversion from External Party to meet interim demand. We provide our own material for sheet production. Here's a breakdown of the cost comparison:</p> <ul style="list-style-type: none"> <li>• Readymade Sheets: ~Qr. 7/KG</li> <li>• Sheet Conversion: Qr. 0.9/KG + Material Cost Qr. 4.2/KG</li> <li>• Our Production Cost (variable cost): Qr. 0.6/KG + Material Cost Qr. 4.2/KG</li> <li>• Cost computation email attached.</li> </ul>
