REASON/OBJECTIVE OF THIS PURCHASE

Replenishment of Guava puree which is used in production of Guava Juices. We are having three approved supplier - Dohler Exotic Fruits, Sunrise Naturals and Acme Harvest. Guava Puree is a seasonal product and is available in the market from Sept to March every year. Presently we have 48.16 MT transit stock ETA 05-10-22 Hamad Sea Port this will meet our requirements until mid December 2022. This year the fruit cost is much higher than previous crop cycle due to high demand in fresh fruit market as well as export market, furthermore overall utility and packing cost has increased the product cost than previous year. Hence, to secure product against availability we are seeking approval for order quantity of 205.40 MT (12 x 20'FT) which will meet our requirement till Mid of December 2023. Delivery schedule will be between November 2022 and April 2023.

Supplier has confirmed availability subject to booking confirmation, Sunrise Naturals has offered \$ 650/MT FOB inclusive legalization, Exotic Fruits has offered \$ 650/MT FOB excluding legalization, Acme Harvest offered \$765/MT CFR Hamad Sea port including legalization. Current freight cost for 1 x 20'FT is \$2,000. Thus, for a comparison Acme Harvest CFR price converted into FOB price in below table by deducting \$116/MT from total CFR price of \$ 765/MT. Shelf-life of this product is 24 months and product will consume before it's expiry thus there will be no expiry risk. (Detail calculation sheet attached).

RISKS/CONCERN/NON-COMPLIANCE OF SUPPLIER POLICY

Raw material cost increased due to high demand against limited source in market. Thus, landing cost exceeding our budget value.
