Subject: Recommendation for QA/QC Photocopier Replacement

Dear Mr. Kamaluddin,

This is regarding an issue with the photocopier machine in the QA/QC department. After the technician's inspection, it was found that multiple parts need replacement. The machine is over eight years old (purchased in March 2017) and the required parts are only available through Al Muftah (the authorized distributor), **the total cost of repairing is QR 5,425 (quotation attached).**

However, given the machine's age and the high repair cost, we checked the **price of a new photocopier (SHARP BP-50C26), which is QR 9,500 (Quotation attached).** We believe purchasing a new one would be a more cost-effective and reliable solution in the long run compared to repairing the old machine.

Therefore, we recommend replacing the photocopier instead of repairing it.

Kindly review and let us know your decision at your earliest convenience.

Best regards,

Mohammad Rahil
