

DANDY COMPANY LTD
APPROVAL FOR ABNORMAL AND EXCEPTIONAL EXPENSES

Doc No (01)

- | | |
|---|-------------------------------------|
| 1. Date: 09 st September 2025 | 2. Business Unit: Dandy Company Ltd |
| 3. Nature of expense: Traffic Fine for vehicle No (64172) | 4. Amount; QR 1,500/= |

5 Brief facts of the case:

On 7th September 2025, the vehicle was sent for technical inspection and it passed without any remark. But when we tried to renew the Istimara online, the system showed that the vehicle is blocked. We checked the portal for fines, but no fine was showing.

Later, our PRO visited the Traffic Department and was informed that there is a fine of QAR 3,000 on the vehicle for "heavy smoke," with an option to pay within 30 days and get 50% discount.

We argued that the vehicle had already passed Fahas (technical inspection) without any issue, and also no fine was visible on the portal. Smoke can also come from a vehicle in certain conditions, like when it is fully loaded and running on a slope, or when sudden acceleration is done for overtaking. This does not always mean the vehicle is faulty and warrants a fine.

However, the Traffic Department did not agree with our point and informed that we have to pay the fine to proceed with the Istimara renewal.

6. Expense to be borne by (Please tick ✓): Vendor Business Unit Both

7. If the expense is to be borne by vendor, N.A.

a. Amount (QR) agreed: _____

b. Please tick ✓ whether there is written acceptance from vendor:

Yes No

If Yes, please attach copy of acceptance and if No, please provide

Remarks _____

8. If expense is to be borne by unit, N.A.

a Amount (QR): 1,500/=

b Reason for incurring the expense and name of the responsible person:

- a) Usually, when the truck is fully loaded and running on a steep slope, or when it suddenly accelerates for overtaking, smoke is bound to come out. The same logic we presented to the Traffic Department, but they did not listen to our explanation.

Action taken not to recur in the future: -

- a) All the vehicles are timely maintained and periodically inspected for any smoke emulsion. We have also changed the brand of engine oil.
